

About the Health Benefit Card

Changing the way the world looks at health care

The Health Benefit Card is a prepaid, reloadable card promoted by United States based Marvel Worldwide Solutions, a pioneer in providing innovative health care solutions for people around the world. The Health Benefit Card can be used with an extensive network of medical, dental, and other health service providers across any country.

The Health Benefit Card is a catalyst for change in the health care industry providing a safe and easy method for non-residents to assist loved ones with much needed quality health care. It works just like a debit card, but rather than being linked to a checking account, the card is linked to funds that have been allocated online for health care purposes only.

The Health Benefit Card removes the confusion and frustration of the money transfer process associated with off-shore accounts. There's no moving money from one country account to another and there's no loss of control. The Health Benefit Card offers a simple sign-up procedure with no credit checks—money can be transferred to the card in one internet transaction. Health Benefit Card users are given the most competitive exchange rate and avoid hidden service and transaction fees.

The Health Benefit Card provides patients with accessible, quality health care at discounted rates. Upon opening an account over the internet, each member is given a unique PIN for access to their account online. The Health Benefit Card is then mailed to the beneficiary residing in the host country to be used exclusively for services provided by doctors, dentists, and other health care providers.

And, health care providers benefit from the Health Benefit Card by expanding their patient base and receiving prompt payment for service rendered. Provider sign-up is a free, one-step process. Once a provider is included in the Health Benefit Card network, their services are discounted to Health Benefit Card beneficiaries.* Providers avoid the hassles of completing and mailing claim forms and waiting for reimbursement and cashing checks. Health Benefit Card payments are processed within 24-36 hours of service can be received via wire transfer, direct deposit, or check.

The Health Benefit Card is NOT an Insurance Plan

Unlike insurance plans, the Health Benefit Card does not rely on paperwork, claims, copayments, etc. It's just a straightforward means for non-residents to ensure that money allotted for health care costs is available to their loved ones in country.

*10% discount on regular in-patient procedures
and 20% discount on out-patient procedures.

Marvel[®]

The perfect solution is simple

From donor to recipient—it's as easy as that! Money can be loaded onto the Health Benefit Card via the internet, the cardholder presents the Health Benefit Card to any registered provider, service is rendered, and provider receives payment. It's that simple...no insurance, no middlemen, no waiting. This exclusive reloadable card is a safe, secure, and reliable way for non-residents to extend medical support around the world without involving money transfers, overseas bank accounts, frustration, and fees.

Welcome to the easiest way to own a business

The Health Benefit Card is the fastest growing health discount card company in the world, connecting non-residents who have earnings to their loved ones who need funding for healthcare.
